The exportation of specie during the year amounted to.	\$29,472,75
The importation of specie and bullion to	5,453,59
Making a drain upon our currency of	\$24,019,16
The total imports into the country during the year amounted to \$216,224,932 From which deduct specie and bullion	
Leaves amount of merchandise imported	\$210,771,34

Leaves amount of produce and merchandise exported \$188,915,259
Deducting the exports of produce and merchan-

find \$21,856,081 as the balance of trade against the United States, according to the returns made to the Treasury.

This, of course, does not include clothing, watches, jewelry, and other personal effects, which our public officers and citizens travelling abroad purchase and bring home as personal wardrobe, which may be set down as equal to the difference between the balance of merchandise imported and that of specie exported.

We further observe that, of the imports, about twenty-four per cent., and of the exports, about thirty-one per cent., were in foreign vessels.

From this data, we suppose political economists can draw some conclusions. To us it looks a little as though we shall need to hunt up another California before many years pass over, or else resort to the first law of nature-selfpreservation. We must protect ourselves.

## THE DAILY AMERICAN TELEGRAPH.

OUR SECOND YEAR! One year ago this day was issued the first number of the AMERICAN TELEGRAPH. We were then assured by many intelligent citizens of Washington that it had already been fully demonstrated that such a paper could not live here, and that ours could not exist three months: while cautious men of business assured us that while cautious men of business and it, then they would give us their support! The predictions

of the former have proved baseless—the wish that was father to the thought has not been realized; and the promises of the latter have not been redeemed. Cut off from all hopes of the kind of patronage

on which other papers of this city fatten-en countering the overwhelming competition of Wash ington papers supported by the government pa-tronage, and the newspapers of Baltimore, that derive their support from a commercial and man-ufacturing population of one hundred and eighty thousand persons—proscribed in official places—avoided by timid men in office—opposed by the concerted influence of a portion of a respectable religious communion, upon a pretext entirely baseless-without the influence in the community of connexions and friends to defend us from the adroit opposition of interested competitors,-we have yet maintained our position, and to-day stand before our fellow-citizens prepared to serve them faithfully, fearlessly, and

dependently.
We have no favors to ask. We have respect and good-will toward the people of this community, and intend to merit theirs in return. But we shall not do this by flattering their follies, or appealing to their sympathies. When such a course as this becomes necessary to insure success, we shall not be ashamed to fail. But until it does, our path shall lie onward and upward.

We will neither fail nor falter. Now for a few familiar words. Why do we not sell our paper as cheap as the Baltimore papers is the frequent question. We reply Because we are not in Baltimore—because a commercial city of one hundred and eighty thousand people can yield an amount of advertising custom not to be obtained in a community of forty thousand people who do their shopping in Balti

Do their shopping in Baltimore! Yes, by a wilful and unreasonable opposition to the only cheap paper of their own that ever could survive their slights, the business men of Washington give all the aid in their power to promote the interests of Raltimore merchants here. The Raltimore papers contain Baltimore advertisements; and the people of Washington compile their memoranda rom such advertisements, send their orders to Baltimore, obtain their goods there, and thus make our own storekeepers pay a well-merited

penalty. Would we proscribe the papers of Baltimore By no means. We regard the morning as flat and dull that does not bring them to us. We are willing to encourage their circulation here. They should bring light and knowledge to every home and place of business throughout our whole city. Every one should rejoice in the facilities they afford. But the extensive circulation of a Washington afternoon paper, with the advertisements of Washington business people, should preserve us from the temptation of sending to Baltimore for those commodities which can as well be obtained in Washington. It was with special reference to this that we commenced an afternoon paper. We knew the advantages offered by the penny press of Baltimore-we appreciated them fully; we did not wish to come in conflict with them. We intended not to cross the path of those journals; and we believed our purposes would be approved by our own people.

By many they have; but not by all. So fa

from this, we seriously doubt (call it egotism if you will!) that there is another man in Washington who would have clung to an enterprise as the writer of this has adhered to that upon which he had embarked—laboring without present re-compense, and with but feeble hope for the future; and even, from bitter necessity, submitting to a transitory public misapprehension of his true position in particulars of the most serious

But away with the past. The present around us, and the prospect before, are what now con-cern us. We have no revenges—no regrets. We have no enemies that we know of, and care not a young people live on while troubled with the dime for any that are unknown. We intend to palpitation of the heart. Mixed with moonlight, labor on, to improve with increasing means, to labor on, to improve with increasing means, to stand by our friends, to make them many, to stifle no sentiment, to sacrifice no opinion, to conciliate no bigot, to flatter no money-worshipshirt-collars has turned his attention to the inno public or private wrong, and in general to live honestly, soberly, democratically, and peaceably, and die only when our time shall have come.

If, therefore, any of our fellow-citizens shall feel inclined to give us kind words of encouragement, and to render us kindly aid, at the commencement of this our second year, we cordially invite them to our office. We will greet them at the threshold with a friendly welcome, endeavor to make a good return for all the benefits we ARISTOCRATIC WIT.—To ridicule the secret-ballot law, in the late Rhode Island election one

FOR THE APPROACHING GENERAL CONFERENCE!

FOR THE APPROACHING GENERAL CONFERENCE!

In accordance with what is believed to be a general wish and expectation of the Methodist public, the proprietors of the Herald have determined to issue, during the approaching General Conference in Boston, a DAILY ZI-ON'S HERALD.

The main design will be to publish the proceedings and documents of the General Conference. Especial pains will be taken, therefore, to give full and accurate reports of the sayings and doings of this important body, and of the various anniversary meetings that may occur during the session. The editor intends continuing his "Characteristic Notes," which were received with so much favor in 1844 and '48. These "Notes," besides observations on the proceedings of the Conference, will embrace Personal Sketches of some of its principal members and visiters.

TERMS.—For a single copy for the session, \$1. The Daily will be issued at least five weeks, or until the adjournment of the Conference. The first number will be issued on Monday, May 3d, and will contain the first day's proceedings of the Conference, a complete list of the Delegates, &c.

AUSTIN GRAY is the Agent for Washington city, and will

WILMINGTON BOARDING SCHOOL

FOR BOYS.—This institution is situated in one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary Raglish branches, Natural Philosophy, Chemistry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and French Languages. Farticular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as therough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, turnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

HUNT'S MERCHANTS' MAGAZINE AND COMMERCIAL REVIEW

lished, July, 1889, BY FREEMAN HUNT, MDITOR AND PROPRIETOR. THE Number for December, 1860, completed the twenty-third semi-annual volume. The work has been enlarged since its commencement in July, 1889, and each volume now contains more than seven hundred large cotavo pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, nearly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commer ters received by the editor of the Merchants' from distinguished statesmen: Letter from the Hon. Henry Clay

Letter from the Hon. Henry Clay.

ASHLAND, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchante Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to poseess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this ordinal. I am glad that it has been, and

to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant,

Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fillmore.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in eaying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Later from the Hon. Though H. Beston.

Latter from the Hon. Thomas H. Benton.

Washington City, April 20, 1849.

Mr. Freeman Hunt.—Nir: I owe you many thanks for the opportunities I have had to read the Merchanits' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it. Letter from the Hon. Thomas H. Benton.

rial labors, and the carefully consulting it.

Very respectfully, sir, your obedient servant,
THOMAS H. BENTON. Letter from Hon. Wm. H. Seward.

My Dear Sir: Have the goodness to place my name en your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

ment.

I am, with great respect, your humble servant,
Freeman Hunt, esq. WILLIAM H. SEWARD.
The Merchants' Magazine is published monthly, at 14'
Fulton street, New York, by FREEMAN HUNT, and fur
nished to subscribers for Five Dollars a year, in advance. TIME BEST AND MOST VALUABLE AGRICULTURAL

IMPLEMENTS AND MACHINERY, exhibited at the State Fair in 1850, will be seen by the award of Pre-miums below:

Awarded to E. Whitman, jr., No. 55 Light street, Balti-more, by the Maryland State Agricultural Society, at their 3d Annual Fair, held in Baltimore 23d, 24th and 25th of October, 1850. betober, 1850.

A No exhibitor of Agricultural Implements at the above named Fair, having received one-half the amount of premiums awarded us on the different kinds of Implements and Machines, it is conclusive evidence that ours were considered the best and most valuable on exhibition.

At the great Fair of the Maryland Institute, for the promotion of the Mechanic Arts, held in Baltimore in October and November, 1850, the first premium (a heavy Silver Medal) was swarded to Exra Whitman, jr., for the largest and best display of Agricultural Implements. Also first premium (another Silver Medal) for his Improved Wrought iron Raliway Horse Power, which was made for exhibition at the World's Fair, in London, in May, 1851.

Our stock this season will be the largest ever offered in this city, and probably the largest in the world, consisting of more than 8,000 Ploughs, 250 Threshing Machines, 1000 Wheat Fans, 1000 Corn Shellers, 500 Straw Cutters, 500 Cultivators, Reaping Machines, Wheat Drills, Corn and Oob Crushers, Burr Stone Mills, Older Mills, Hay and Oction Presses, together with every article which a farmer or planter could wish in the prosecution of his pursuits; al! of which will be sold on reasonable terms, at wholesale

COLD SPRING WATER CURE. TIHIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minuten.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messrs. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eris, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and coaseless enterprise.

"Queen City of the Lakes," with its moving panorams of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable ex-tra expense, and is sufficiently capacious to accommodate exemption rationate.

tra expense, and is summerly expected seventy-five patients.

Connected with the establishment, and constitutions, are the fixtures and conveniences of in necent and healthful gymnastic exercises.

MEDICAL DEPARTMENT. MEDICAL DEPARTMENT.

The institution is under the general supervision of 8.

M. Davis, M. D., Professor of the Theory and Practice of
Medicine in Central Medical College, and Geo. W. Davis,
M. D., formerly of Dansville, N. Y., the resident physician,
and is permanently associated with the before mentioned
gentleman as counsel, and associate of the medical board
of control. And the friends of the establishment deem it
a matter of felicitation that the services of Miss Mary M.
Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at
any time avail themselves of her invaluable aid and counsel.

sel.

The steward's department is under the control of a gen-tleman eminently qualified for that position; and unwes-ried pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the cur-of the various forms of disease, and constructed on a scale of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative sgent, is a practical substitution of a simple and remarkably effectious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the sarly discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.

For board, medical advice, attendance and nursing, &c., from \$7 to \$14 per week, payable weekly, rarying according to the room and attention required. Each patient will be required to furnish two lines sheets, two cotton comforters, one woollen blanket, and four towels; ar, where it is not-convenient for the patient to furnish them as above, they can be supplied at the establishment by paying fifty cents a week.

All communications for medical advice should be addressed either to S. M. Davis, M. D., or to George W. Davi M. D., 239 Main street, Buffalo, N. Y.
